DOCUMENT MANAGEMENT FOR life**hackers**

KwikTag Transactional Content Management for Anywhere in your Enterprise

Hack Through Document Clutter and Get Greater Performance from your ERP system.

KwikTag delivers instant access to scanned paper and electronic files anywhere within your ERP system. KwikTag uses a patented process that makes it easy to capture documents and critical information with minimal effort. Powerful content-based search capabilities put all documents related to a transaction at your fingertips. KwikTag extends access to a Web browser—so even your non-ERP users can get the information they need, wherever they need it.

Powerful Workflow for Single Documents or Multi-Document Case Folders

Beyond document capture and retrieval, KwikTag offers powerful workflow for automating any document-driven business process. KwikTag streamlines the entire life cycle of a document-driven transaction by automating document routing and approval. KwikTag makes it easy to enforce approval policies and quickly view all related documents, reports, process escalations, audit trail and status within a single case view. You instantly identify and resolve process bottlenecks.

ERP-integrated and stand-alone document management platform

Easily access scanned paper or electronic files from within or outside of your ERP system.

See all related documents wherever you need them

Case management delivers complete visibility to every document and workflow action

Document access for BOTH ERP and non-ERP users

Lifehacking: Taking control of your priorities through process automation and the ruthless elimination of clutter and interruptions.

There's a KwikApp™ for That!

To efficiently meet the needs of your departmental processes, from AP to AR, HR and more, KwikTag has introduced KwikApps. KwikApp solutions include workflow templates and exportable online reports to support the documents and processes that are specific to each department within your organization. KwikApps automatically create associations between the documents that are relevant to your process, so that invoices, packing slips and purchase orders are instantly matched—or so that all documents related to an employee are associated for quick reference.

KwikTag delivers value.

The power of a solution isn't practical if the cost is out of reach. KwikTag balances comprehensive, feature-rich Transactional Content Management with affordability, fast implementation, ease of use and maintenance, and low cost of ownership.

No solution deploys easier or faster.

KwikTag is a turnkey solution delivered on a pre-configured appliance and, in the physical version, doubles as a storage server, so there is no need for additional IT infrastructure or maintenance. Deployments are up and running in a few days with an integrated, easy to learn, and easy to use application.

Contact your ImageTag representative today and schedule a live demonstration.

Immediate Results, Amazing ROI

5 day average deployment time

90% lower document processing costs

80% of KwikTag customers achieve ROI in less than a year

50% achieve ROI in less than six months
