COMPANY OVERVIEW:

Introduction

SupreTech is a Certified Small Disadvantaged Business founded in 2003 with headquarters in Washington, DC. SupreTech provides enterprise systems engineering and integration solutions to both the State and the Federal Government. Our mission is to provide our customers with the best solution to meet their requirements within their budget and on schedule.

SupreTech has sustained consistent growth by providing the government with a trusted partner who can satisfy the unique needs of an Agency.
The SupreTech Management Team has a long and respected history of successful performance on client projects. They are also familiar with the many government acquisition programs and procedures.

VALUE ADDED:

SupreTech President/CEO has acquired many years of experience as a Network Engineer through his prior federal government careers. SupreTech employees average 15 years plus experience with many holding advanced degrees and multiple certifications in technical and management specialties. SupreTech can easily assist an Agency with their technical mission to meet their desired results within their budget limitations.
